Letter of invitation of Yukun SHI for research collaboration at the University of Oxford

Dear Professor Yukun Shi, and To Whom It May Concern,

I am writing to invite you to visit the University of Oxford during 12th to 13th May, 2024, to undertake research discussions on the topic of 'Global cooling in Carboniferous and the marine biodiversity pattern', as well as student training collaborations through the programme 'Deep-time Earth and Life Transnational Alliance'.

I understand that your round-trip fares and living expenses will be covered by your research funding.

Please do not hesitate if you have any further questions.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Erin E. Saupe'.

Erin E. Saupe, PhD
Professor of Palaeobiology
Department of Earth Sciences
University of Oxford
