

22/04/2024

Nanjing University
163 Xianlin Road, Qixia District
Nanjing, China 210023

Dear Yueqing,

I sincerely invite you to visit Flinders University on 15-24 June 2024. The main purpose of this visit is to deepen our collaboration on decoding paleoclimate by combining stable isotopes and radio-isotopes, as well as on understanding of the ecohydrological processes in varying coastal environments. We have been discussing this research via a Teams meeting and through email. Your visit will provide opportunities for us to discuss these problems more effectively. We will arrange field trips to the Adelaide's coast to collect water samples when you are here.

In the meantime, we may also discuss the student excursion to Flinders University. We have been discussing this through email several times. It is important that we can talk about in details with the Director of National Centre for Groundwater Research and Training when you visit Flinders.

I believe that this visit will be fruitful. I will look forward to seeing you in Adelaide.

Best regards,

National Centre for Groundwater Research and Training
